

RIGIDIZED[®] 5.WL[®] Popular and Hard Working

The Classic

Rigidized 5.WL[®] is a popular choice for Architects, Designers and Engineers were specifying Rigidized[®] metal surfaces. The woven fabric look of the embossed surface softens glare, hide scratches, and reduces friction. Some common applications include:

- Elevator Interior Panels
- Partition Systems
- Machine Components

Image	Pattern	Width	Stainless Steel Thickness	Other Metal Thickness
	5.WL [®] [5WL, 5-WL]	60"	0.018"-0.090"	0.008"-0.090"
